MAIN SESSION

SOWS - Tuesday March 28

A future vision of swine production -

Nikolas Badminton, Futurist

Mastering breeding in an era of new technology -

Mark Estienne, Virginia Tech

Batch farrowing in a large system -

Jean Marc Laurent, Hypor

The issue of pre-wean mortality -

Dawn McGrath, DVM

WEAN TO FINISH - Wednesday March 29

CFM de Lange lecture - Swine nutrition and technology -

Mike Tokach, Kansas State University

Answering tough questions: Building public trust in agriculture -

Bernard Tobin, Synthesis Agrifood Network

Gut health and the microbiome -

Emma Allen-Vercoe, University of Guelph

Economics, grain and hog outlook -

Ron Plain, University of Missouri

2017 Premier sponsors

WORKSHOPS

8:30am Registration • Reception 4:30pm

SOWS - Tuesday March 28

Revisiting the basics of breeding

Retrofit for loose housing - Converting to loose housing?

Human resources, training and building a team

Batch farrowing & processing management

What data do you collect and how do you use it?

Solutions to productivity challenges

WEAN TO FINISH - Wednesday March 29

The impact of disease and stress

Reducing antimicrobials post-weaning

Answering tough questions: Tips, techniques and strategies

Emerging diseases

Feed efficiency in swine - a review of recent research

LSC SPEAKERS

Mike Tokach

Kansas State University

Dr. Tokach is a Professor of animal sciences and industry, a swine extension specialist and researcher. He also serves on the Board of Directors for the K-State Research Foundation and American Society of Animal Science. He has been named one of the 50 people who has made the greatest impact in the swine industry in the last 50 years.

Nikolas Badminton

Futurist

Nikolas is a world-respected futurist speaker that provides keynote speeches about how the world is evolving as exponential technology advances. Nikolas is based in Vancouver, BC, and speaks across North America, UK, Asia, and Europe

Mark Estienne

Virginia Tech

Dr. Estienne is a Professor and swine research physiologist stationed at the Tidewater Agricultural Research and Extension Center in Suffolk. His research is focused on enhancing semen quality and libido in boars used for artificial insemination, hormonal control of the gilt estrous cycle, and the impact of nutrition and management on sow reproductive performance.

Dawn McGrath

Windwhistle Veterinary Services

Dr. McGrath is practicing as a swine consultant and working towards the ABVP board certification in swine health management. She graduated from Liverpool University, England and moved to Canada in 2002. Dawn worked in mixed practice in Manitoba and Alberta before 2008 when she chose to focus on swine.

Bernard Tobin

Synthesis Agrifood Network

Bernard is a writer and journalist, and has worked for two of Canada's leading agricultural communications firms. He has led numerous communications workshops and training sessions for organizations such as Farm & Food Care Canada and the Rural Ontario Institute.

Ron Plain

University of Missouri

Dr. Ronald L. Plain is Professor Emeritus in the Department of Agricultural and Applied Economics at the University of Missouri-Columbia. His areas of expertise include livestock marketing, farm business management, and swine production.
